

If your previous host was using cPanel, we can transfer over the accounts for you no problem. cPanel account package/unpackage and move very easily. The first 10 accounts are at no charge, and any account after that is \$3 per domain.

If you require assistance moving non-cPanel accounts please ask our staff, we would be glad to help! Tags: [domain](#) , [account](#) , [assistance](#) , [client](#) , [charge](#) , [accounts](#) , [host](#) , [staff](#) , [glad](#)
